**The Buckingham School's Centre of Further Education
(Sixth Form) - A Level Results**

The Buckingham School's Centre of Further Education (Sixth Form) is delighted with the improvements that have been experienced this year. The focus has been on achieving top end results in A level subjects that allow students to go on and follow their dreams. Due to all the hard work by the students the A*-B results have improved by over 10% and A*-C results by over 5%. There have been excellent results in subjects such as English Literature, Business Studies, Photography, Performing Arts and Media. The school wants to especially recognise the performance of Victoria Neal, Lee Hart, Josh Graham, Scott Wignall and Kayleigh Buck.

This has meant that the highest number of students in the school's history will be attending universities this year, which includes some of the top universities in the country. In addition to this, there are students embarking on outstanding apprenticeship opportunities in areas such as accountancy and engineering. There are also students that are continuing their sports coaching qualifications to a higher level.

We are really excited about the upcoming year. The curriculum has been expanded to include Economics for all our future business leaders, Film Studies for our budding directors, Enterprise for the next Mark Zuckerberg and The Extended Project has been added which has proved to make a real difference to students applying to university courses that are more competitive than ever.

There are still a few places available for the academic Year 2015/16, if you are interested please contact csherwood@bucksgfl.org.uk .
